

REMINDER-S&R Club-ADS-B and how it will help you

The laws of physics for flying have not changed since man began flying. What has changed is the tools and procedures we use to be more efficient and safe in the air. In an effort to modernize these tools, the FAA is heavily investing in NextGen to push the US airspace system to the 21st century and beyond. Come to the session to learn more about NextGen and more specifically ADS-B and how it will affect the way we will fly in the future..

Directions: The quarterly Stick and Rudder Club meeting will be held at the River Hills Tennis Club, in THE GRILL ROOM Restaurant. Just order your dinner and come join us.

Only CASH or CHECK for the meal is accepted. No Credit Cards.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
